CHIAVARI CHAIRS

These designer chairs are a cost effective way to transform the look of a venue. They add consistent, subtle splashes of color, allowing large focal areas like your stage and centerpieces to be the highlights. They come in many different color combinations, enabling you to customize your color scheme perfectly with your linens and other decor.

BANQUET CHAIRS

These chairs are included as part of your venue package. Their thick padding makes them comfortable. They can be covered by Spandex Chair Covers with different colored sashes, which allow for a different aesthetic between different events.
